## 2018 Seedling Sale Order Form

Happy Groundhog Day! Winter is now halfway over and in six weeks we open the greenhouse. That means it's time to start thinking about spring planting and we are pleased to once again offer you the opportunity to order seedlings for pick up at our spring open house in May. Placing orders for seedlings now, helps us properly allocate our limited greenhouse space and assures that you will get the seedlings of your choice.

Our seedlings are raised on the farm in our licensed greenhouse, the same varieties we grow for the farm. As farmers our livelihood depends on the seedlings we grow, so you can be confident that our seedlings are healthy, vigorous, and disease free. We are committed to sustainable growing practices, using only certified organic potting soil and fertilizer and non-GMO seeds sourced from trusted seed companies. We choose varieties with good taste and quality that grow well in this region, including many organic and heirloom varieties. We time our seeding schedule so that seedlings are hardened off and ready to plant when you get them. For best results, plan to transplant your seedlings as soon as possible after pick-up.

Below you will find a list of the flower, herb and vegetable varieties we are offering this year. If there is a variety you are looking for but do not see, please let us know! (If there is sufficient interest, we'll add it to our crop list.) There are a few changes to our order form this year. Areas in green are to be filled out by you. This includes contact information and your seedling choices. Please enter the number of packs of each seedling you would like (REMEMBER, different crops have different numbers of seedlings per pack!) Areas in red are for calculating the number of flats and individual packs you order and their total price (the spreadsheet form will fill these out automatically). Also new this year, each variety name is a link to our seed supplier's website which will describe the variety and show you a picture of it.

Due to limited greenhouse space we strongly encourage you to order as soon as possible. Forms can be emailed to us at [foxtailcommunityfarm@gmail.com](mailto:foxtailcommunityfarm@gmail.com) or mailed to: Foxtail Community Farm, 506 County Route 75 Greenville NY 12083. Full payment is due with your order. You can pay with a credit card at <https://squareup.com/store/foxtail-community-farm> or mail us a check at the above address. Please don't hesitate to contact us with any questions you may have. Thank you for your order and think warm thoughts until spring!

### ***Key dates:***

- **March 1** – last date to place pre-orders.
- **March 17** – seeding begins in the greenhouse.
- **May 19 & 20** – pick up seedlings at Spring Open House.
- **May 28** – last day to buy seedlings.
